Tested drinking water systems

Protect humans and the environment

We voluntarily participate in
"Responsible Care" - the global
initiative of the chemical industry.

Tested drinking water systems

Not only the use of correct raw materials but also the correct manufacturing processes for products that come in contact with drinking water are of significant importance.

In accordance with our company policy „Protect Humans and the Environment“, we offer you our know-how to obtain a certificate for drinking water.

Drinking water pipeline HOBAS Water Line®

Large-scale water storage tank VKA GmbH

Test certificate issued by „ofi Technologie & Innovation GmbH“

The following systems/gelcoats/resins have presently been assessed suitable according to the “KTW-guideline for hygienic assessment of organic coatings in contact with drinking water” and to the “Code of Practice W 270” issued by the “German technical and scientific association for gas and water (DVGW)” (all components have also been assessed suitable in an individual test independent of the system construction).
