for the Bus and
Vehicle Industry

BÜFA®-Firestop-Systems

Fire Protection with System

Tested in accordance with 95/28 EC
and FMVSS 302

Fire retardant systems

New BÜFA®-Firestop-Systems for the Bus and Vehicle Industry

BÜFA®-Firestop GC S 220-S Natural (Product No. 514-2200): Gelcoat

BÜFA®-Firestop 8170-W-1 (Product No. 716-8170): Laminating and RTM Resin

Your Advantages:

- **Efficient fire protection for busses and other vehicles in accordance with 95/28 EC and FMVSS 302**
- **Maximum safety**
Enhanced fire protection as well as less smoke-gas development and toxicity compared with former systems
- **Maximum efficiency**
With minimum costs, the best possible working properties, variable processing methods and the best final properties
- **Finished components with the best final properties**
High HTD and mechanical values, outstanding weathering properties

All BÜFA®-Firestop products are strictly tested according to German as well as international standards. They can be quickly and easily worked without special requirements on the production process.
